User stories for release:
Sprint 1:
(10 story points)
User Story 1
As a user, I want to be able to log in with a Google or Facebook account, so that I can access the website or application.
The task will need to use the api of Google and Facebook and will take five hours.
User Story 2
As a user, I want to post items to potentially trade with those of other users, so that I can exchange things I own for things I want.
The task is to search for keywords with other items and match the trading together. This will take three to five hours.
User Story 3
As a user I want to have an intuitive UI where things are minimalist and easy to use
